Subject: Neighbourhood development plan

Hello Martin and David,

Thank you for the notification that we are now in the final consultation stage for the plan.

We have reviewed all the documents again and we have no further formal comments that we wish to make, but we felt we couldn't let this period pass without passing on our thanks and gratitude to all of the committee for the tireless work you have all put into producing and progressing the Development plan.

We wish you good luck in getting it through the final hurdles of the process.

Kind regards
Andrew & Diane Osborn.
