

VALE OF AYLESBURY LOCAL PLAN EXAMINATION

Inspector: Paul Clark BA MA MRTPI

Inspector's additional questions in reply to AVDC's responses his question 104:

The Council's response to Q104 gives rise to a further question (**Q115**) which in essence is a reinforcement of Q111, to be discussed in Hearing session 43

(Q115) I am generally satisfied by the Council's response to my Q104 but I note that in three places the Council's response relies upon the IDP. As noted in my Q111, the IDP, like the Buckinghamshire Local Transport Plan on which policies T1 and T3 rely, does not form part of the Development Plan and so, unless its provisions are translated into VALP, I am not convinced that they can be relied upon to show that VALP is comprehensively compliant with the NPPF and therefore sound. I would appreciate it if the Council would give further consideration to these points which can be discussed further in hearing session 43 (matter 13).
