Dear Mr Clark

VALE OF AYLESBURY LOCAL PLAN, EXAMINATION – FORWARD PROGRAMME FOR THE EXAMINATION

We are instructed by and write on behalf of LaSalle Land Limited Partnership (LLLP) (representor 27575) with respect to the Vale of Aylesbury Local Plan (VALP) Examination in Public.

Following the completion of the scheduled Examination Hearing Sessions on 20th July, we understand that you will now be in a process of considering the detailed evidence submitted and heard. We also understand that you will be drawing conclusions on where modifications will be necessary to make the Plan sound.

It is important for our client (and other representors) to fully understand the timetable for the publication of your Report, including whether you will be drawing interim conclusions on matters such as the overall housing requirement (as this has ramifications for any modifications to other issues such as the spatial strategy and transport infrastructure provision as were raised in various Hearing sessions). It is also important for our client to understand the timing/programme for the Council’s proposed modifications to the Plan. This is in order that any Plan modifications can be considered in detail with appropriate time for further representations as necessary.

We would therefore be grateful if, via the Programme Officer, a more specific and detailed programme were to be made publicly available at the earliest opportunity.

Yours sincerely,

MIKE TAYLOR BsocSc (Hons) MSc MRTPI MIED CIHM
Director, Chilmark Consulting Ltd.

cc. Mr Wayland Pope, for LLLP
