

Vale of Aylesbury Local Plan examination

Timetable for publication of Modifications

The Council has recently provided me with its suggestions for Modifications to the Plan. Its suggestions are supported with background material. The suggestions have been published on the Council's Local Plan site. The supporting material is published on the examination website. The purpose of this note is to advise members of the public that representations on these suggestions should **not** be made at the present time.

For the next few weeks, I have other commitments but, when those are out of the way, I will be considering the Council's suggestions and comparing them with what I was expecting the Council to propose following the Hearing sessions which took place in July last year.

I expect to complete that comparison before the end of August 2019 after which I will recommend to the Council a Schedule of Modifications which I will ask it to publish for public representations to be made at that time. That publication is likely to happen in mid-September 2019. I will then be glad to receive representations on my recommended Modifications. I hope to be able to consider those representations (and the Council's response to them) in November 2019.

In the meantime, please do **not** send to me comments on the Council's suggested modifications. Doing so will distract me from the main task and will simply slow the process.

Paul Clark

Inspector
