

VALE OF AYLESBURY LOCAL PLAN EXAMINATION

Inspector: Paul Clark BA MA MRTPI

The Inspector thanks the Council for its responses to questions 1-15. Where the response indicates that a modification (minor or otherwise) is suggested, I would like to see these in due course.

I am satisfied with the response to my question 1 and have no follow up questions.

I am satisfied with all but one of the responses to my question 2 and would like to see the modifications proposed in due course but have the following follow-up question to question 2(xiv); **Q107** I did not sufficiently articulate my concern in the way I phrased this question originally and request the Council to revisit this response in the light of the following. I meant to make two points; firstly to point out that the last sentence of paragraph 4.174 duplicates policy D5(d) with additional requirements not stated in the policy itself; secondly, to point out that paragraph 4.175 seems to be expounding a policy which is heralded in the penultimate sentence of paragraph 1.14 of the plan and in objective 1 of paragraph 2.6, justified in paragraphs 6.1-6.10 and expressed in policies E1 and E2 but without the specific policy requirement of the final sentence of paragraph 4.175.

I am satisfied with the response to my question 3 and have no follow up questions.

A response to question 4 remains outstanding.

I am satisfied with the response to my question 5 and have no follow up questions.

I am grateful for the response to my question 6 but feel that this could benefit from further discussion at a hearing session.
