

Inspector's Question 65

I would welcome the Council's observations on the representation (590) from Dr Geoffrey Harris alleging an inconsistency between policy D2 and allocation EDL021.

Inspector's Question 102

I would welcome the Council's observations on representation 1071 from Mrs Lee Turkel of Waddesdon Neighbourhood Plan Steering Group concerning the justification for the provisions of allocation WAD006.

AVDC Response

Subsequent to the approval of the submission VALP by the council neighbourhood plans for both Edlesborough and Waddesdon were 'made'. Consequently D-EDL021 and D-WAD006 were removed from the VALP as policies prior to submission and are now shown on the relevant VALP policies maps as committed sites that are allocations within made Neighbourhood Plans. As such, representations on these committed sites are not relevant to be considered for the VALP examination.
