

Aylesbury Vale Landscape Character Assessment, May 2008

Minor Corrections to the Study, May 2013

The following minor changes have been made to the study originally published in May 2008 to correct inconsistencies or inaccuracies in the original report to ensure the study can be properly used.

Landscape Character Area (LCA)	Correction Made	Reason
1.6 Oatleys Plateau	Summary Table 'Condition' changed 'Poor' to 'Moderate'	To be consistent with the text
4.3 Gawcott Ridge	Summary Table 'Condition' changed from 'Weak' to 'Poor'	To be consistent with the text
4.6 A421 Ridge	Added into the summary text for 'Sensitivity' that 'Sensitivity is Moderate'	To make it clear in the text what the sensitivity rating is for this LCA
4.12 Winslow Ridge	Stated in the 'Condition' summary that the 'Visual Unity' is 'Strongly Unified'	To be correct and consistent with the Summary box
6.1 Brickhills Scarp	Stated in the 'Sensitivity' summary that the 'Sensitivity is High'	To be clear in the text what the sensitivity rating is for this LCA
7.1 Charndon Settled Hills	Changed the Summary Box to state the 'Condition' is 'Good'	To be consistent with the text
8.5 Northern Vale	Changed the text from 'archaeological site at Quarrendon..' to 'Archaeological sites at Quarrendon'	To be correct and consistent with the rest of this assessment that there are several Archaeological sites in with LCA
8.7 Cheddington Vale	Changed the 'Sensitivity' text for state 'tree cover is open (generally absent)'	To be correct, clear and consistent with the summary box
9.4 Waddesdon-Eyethrope Parkland	Corrected the text 'Sensitivity' summary to state the sensitivity is 'Very High'	To be correct with the paragraph and consistent with the summary box
10.3 Marsworth and Pitstone Chalk Quarries	Changed the Summary Box to match the Text. 'Condition' changed to 'Good' and 'Functional Integrity' changed to 'Coherent'	To be correct and consistent with the text
11.1 Chilterns Scarp	Changed the 'Sensitivity' text from 'the overall sensitivity is considered to be moderate' to 'the overall sensitivity is considered to be high'	To be correct with the rest of the paragraph and consistent with the summary box
